

POSSESSION AND REPAIR CONFIRMATION

Transaction 48290 · v1 · Page 1 of 2

POSSESSION SCHEDULE P

Property 48 Redwood Place, Harborfield; parties Taylor Morgan and Jamie Ellis. Possession is planned upon the contractually required closing/recording confirmation and delivery arrangement, not the execution of this coordination record. No post-closing tenancy or separate rent-back is agreed. No rental rate, security deposit, or occupancy extension is established. Seller shall remove excluded personal property and refuse before the agreed transfer.

REPAIR RECONCILIATION

Inspection references R-01 through G-06 remain observations. No separately negotiated repair credit or seller repair contract is entered. The prior window resealing and faucet service are historical work, not new closing obligations. No additional settlement credit is to be inferred from a maintenance suggestion. If the parties later agree to work, the instrument shall state the responsible person, completion date, invoice requirement, and treatment of incomplete work.

NOTICES AND DELIVERY

Notices shall be delivered to the receiving party through the representative designated in the agency record, with a copy to the escrow officer when money, dates, title instructions, or possession are affected. A courtesy telephone call does not replace a written notice. Electronic delivery shall include the entire attachment and all referenced continuations; an acknowledgment of receipt does not signify agreement to a proposed change. The sending representative shall retain the transmission time and the receiving address in the correspondence log. A corrected attachment shall identify the earlier attachment it replaces. Statements made during a showing are not incorporated unless reduced to writing and accepted by the parties.

ACCESS DEVICES AND FINAL CONFIRMATION

Included access items: two garage remotes and available exterior-door keys. Device counts are to be verified at delivery; the present record does not certify receipt. Buyer may arrange rekeying after authorized possession. The final walk-through is separately scheduled for September 14, 2026. Any material change reported there shall be presented to the parties before an inconsistent completion entry is made.

POSSESSION AND REPAIR CONFIRMATION

Transaction 48290 · v1 · Page 2 of 2

INCLUDED PROPERTY AND CONDITION

Existing attached lighting, curtain rods, built-in cooking appliances, garage-door opener and two remotes, fixed bathroom mirrors, planted landscaping, and installed irrigation controls are included without separate allocation of price. Seller's freestanding office shelving and movable patio furniture are excluded. Seller shall not substitute an appliance of lesser capacity between inspection and delivery of possession. Manuals and transferable service records in Seller's possession shall be left in the kitchen drawer. No representation is made that a manufacturer's warranty is transferable. Ordinary wear occurring during reasonable residential occupancy is distinguished from a new casualty or the removal of an included fixture.

INVESTIGATION AND CHANGES

Buyer may arrange non-destructive investigations through insured providers with reasonable advance notice. Utilities shall remain available for scheduled inspections, except during an emergency or an interruption outside Seller's control. Intrusive testing, opening walls, and removal of finishes require separate written permission. A request for repairs is a proposal and does not itself amend the price or extend a deadline. Any accepted credit shall identify the amount, purpose, and affected settlement entry. Except for the particular term expressly changed by a signed amendment, provisions of the underlying instrument remain as written. Conflicting instructions shall be referred to the parties before the affected act is performed.

PERFORMANCE AND SETTLEMENT

Delivery of keys shall follow the possession provision, not merely the signing appointment. Escrow shall obtain lender and title instructions applicable to its own work before disbursement. Prorations shown before close are estimates subject to the final settlement calculation; a later corrected tax bill shall be handled as the parties' written instructions provide. A returned document with an omitted initial, incomplete attachment, or unaccepted alteration shall be returned for correction without treating the incomplete entry as consent. Each signatory shall receive a complete counterpart, including incorporated schedules. No representative is authorized by this instrument alone to sign another person's name or change a financing condition.

SIGNATURES AND ELECTRONIC AUDIT TRAIL

Buyer: /s/ Taylor Morgan — simulated signature, August 27, 2026 14:20.

Seller: /s/ Jamie Ellis — simulated signature, August 27, 2026 15:05. This signature applies only to this instrument.
