

AMENDMENT #1

Transaction 48291 · v1 · Page 1 of 2

INSTRUMENT AMENDED

Reference is made to the residential agreement dated August 18, 2026 between Taylor Morgan and Jamie Ellis, concerning 123 Main Street, Harborfield. This continuation addresses the calendar provision only. Escrow reference: HF-2026-48291. The parties' representatives shall circulate this instrument with the underlying agreement rather than extracting its date into a stand-alone instruction.

SUBSTITUTION IN CALENDAR PROVISION

The controlling closing date to September 17, 2026 is the date entered for the closing milestone. No purchase-price, party, deposit, financing, title, or disclosure term is changed. No additional seller credit, rent-back, assignment, or release of a separate contingency is authorized. The walk-through appointment remains a planning entry subject to access coordination. A financing extension, if needed, shall be requested from the lender separately.

NOTICES AND DELIVERY

Notices shall be delivered to the receiving party through the representative designated in the agency record, with a copy to the escrow officer when money, dates, title instructions, or possession are affected. A courtesy telephone call does not replace a written notice. Electronic delivery shall include the entire attachment and all referenced continuations; an acknowledgment of receipt does not signify agreement to a proposed change. The sending representative shall retain the transmission time and the receiving address in the correspondence log. A corrected attachment shall identify the earlier attachment it replaces. Statements made during a showing are not incorporated unless reduced to writing and accepted by the parties.

COUNTERPARTS AND SCOPE OF CONSENT

The parties' consent to a calendar change does not establish execution of an omitted signature on the underlying contract. An unaccepted negotiation remains unaccepted. A copy shall be supplied to the lender processor and the escrow officer so that their own date-sensitive documents can be reviewed. All pages attached at transmission must accompany the returned counterpart. Initials on this page apply to this amendment and are not to be placed on a different instrument by the recipient.

AMENDMENT #1

Transaction 48291 · v1 · Page 2 of 2

INCLUDED PROPERTY AND CONDITION

Existing attached lighting, curtain rods, built-in cooking appliances, garage-door opener and two remotes, fixed bathroom mirrors, planted landscaping, and installed irrigation controls are included without separate allocation of price. Seller's freestanding office shelving and movable patio furniture are excluded. Seller shall not substitute an appliance of lesser capacity between inspection and delivery of possession. Manuals and transferable service records in Seller's possession shall be left in the kitchen drawer. No representation is made that a manufacturer's warranty is transferable. Ordinary wear occurring during reasonable residential occupancy is distinguished from a new casualty or the removal of an included fixture.

INVESTIGATION AND CHANGES

Buyer may arrange non-destructive investigations through insured providers with reasonable advance notice. Utilities shall remain available for scheduled inspections, except during an emergency or an interruption outside Seller's control. Intrusive testing, opening walls, and removal of finishes require separate written permission. A request for repairs is a proposal and does not itself amend the price or extend a deadline. Any accepted credit shall identify the amount, purpose, and affected settlement entry. Except for the particular term expressly changed by a signed amendment, provisions of the underlying instrument remain as written. Conflicting instructions shall be referred to the parties before the affected act is performed.

PERFORMANCE AND SETTLEMENT

Delivery of keys shall follow the possession provision, not merely the signing appointment. Escrow shall obtain lender and title instructions applicable to its own work before disbursement. Prorations shown before close are estimates subject to the final settlement calculation; a later corrected tax bill shall be handled as the parties' written instructions provide. A returned document with an omitted initial, incomplete attachment, or unaccepted alteration shall be returned for correction without treating the incomplete entry as consent. Each signatory shall receive a complete counterpart, including incorporated schedules. No representative is authorized by this instrument alone to sign another person's name or change a financing condition.

SIGNATURES AND ELECTRONIC AUDIT TRAIL

Buyer: /s/ Taylor Morgan — simulated signature, August 27, 2026 14:20.

Seller: /s/ Jamie Ellis — simulated signature, August 27, 2026 15:05. This signature applies only to this instrument.
