APPLICATION ROUTING

HCL-48291; borrower Taylor Morgan; subject 123 Main Street, Harborfield; processor Morgan Lee. This list accompanies the separately dated approval or preapproval letter. APPLICANT CORRESPONDENCE

Please send documents through the lender's secure intake channel and place the application reference on each attachment. Provide every page of an account statement, including a page containing only disclosures, because running balances and ownership information may appear outside the transaction listing. A large transfer between accounts should be accompanied by both sides of the transfer. Do not redact the account holder's name, statement period, or last four digits needed for matching; full account numbers are not reproduced in this copy. Gifts, borrowed funds, and proceeds from an asset sale have different supporting-document requirements. Contact the assigned processor before substituting one source of funds for another.

RESPONSE INSTRUCTIONS

For condition 02, identify both sides of a transfer and retain the full statement period. For condition 04, submit the complete returned counterpart rather than a signature page without terms. For condition 05, use the property address and policy effective date, not a premium quote alone. A reference to an enclosure without the enclosure is not a complete response. Changes in loan amount or contract consideration require the processor to reconcile the application before requesting closing documents.

CHANGES BEFORE FUNDING

Tell the loan officer promptly about a change of employment, compensation structure, occupancy intention, other financed property, new installment obligation, or a changed purchase agreement. A credit inquiry may require an explanation even if no account was opened. Do not assume that a verbal rate discussion is a rate lock or that a lock remains in effect after its stated expiration. An approved program is not permission to disburse against an incomplete settlement file. The lender's closing desk will compare the final contract, hazard evidence, title instructions, and signed package to the conditions applicable at the time it releases funds.

AMOUNTS AND TIMING

Escrow deposits and annual premiums are different from the monthly payment retained in a servicing account. A payment illustration excludes utilities, maintenance, and assessments not collected by the lender. Daily interest changes with the actual funding date; the estimate assumes the proposed schedule rather than guaranteeing it. Charges paid before closing should be credited only once. If an invoice changes, retain both the original estimate and the revised amount with an explanation of the affected line. Receipt of this correspondence acknowledges delivery only and does not commit the applicant to a loan. Questions about a specific fee should identify its line code and the version being compared.
